**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: nonelected claims 9-21 (without traverse) have been canceled.

### **REASONS FOR ALLOWANCE**

2. Claims 1, 5-8 and 24-25 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not anticipate nor render obvious to one ordinary skilled in the art a liquid crystal display device comprising a combination of various elements as claimed, more specifically, an electrode pattern formed within the sealing area on the second substrate, the electrode pattern is completely embedded with a lengthwise portion of the seal pattern and is directly covered by the seal pattern.

Sawatsubashi ('301) discloses an LCD display device comprising an electrode pattern formed on a lower (second) substrate and a sealing pattern directly formed on the electrode pattern. However, Sawatsubashi fails to disclose "an electrode pattern formed within the sealing area on the second substrate, the electrode pattern is completely embedded with a lengthwise portion of the seal pattern and is directly covered by the seal pattern".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
